

Temperature and Storing Draught Beer

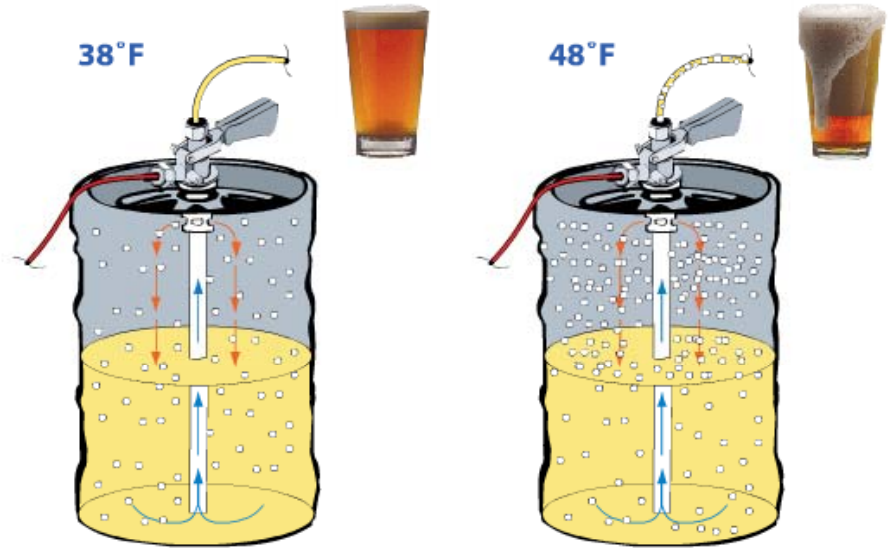

The most common service or trouble call usually relates to temperature.

DEDICATE WALK-IN TO BEER

It is recommended that a walk-in cooler be used exclusively for beer.

DRAUGHT BEER MUST BE STORED AND DISPENSED COLD (38° F)

It does not matter if beer is pasteurized or non-pasteurized.

Storing Draught Beer and Keg Beer Shelf Life

PASTEURIZED

- Imports
- Stored at room temperature

NON-PASTEURIZED

- Primary US domestic beers
- Keep refrigerated at all times

Keg Beer Shelf Life
